

GREEN SCORPION v7.0

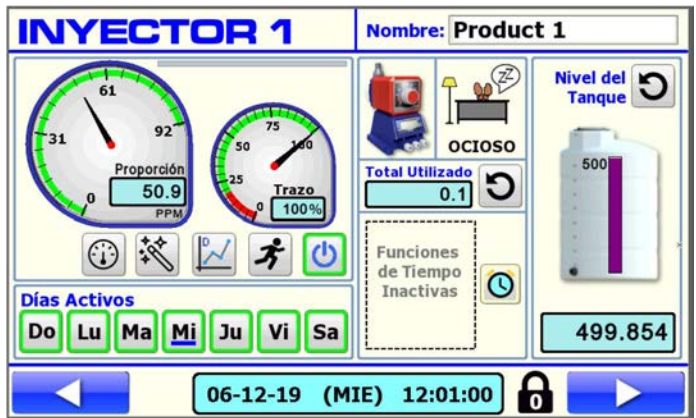

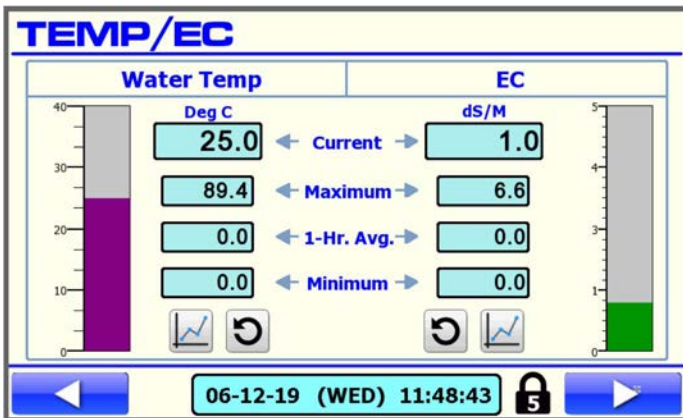

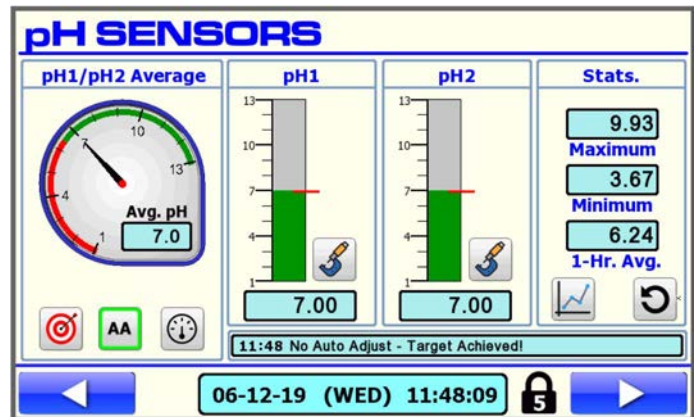

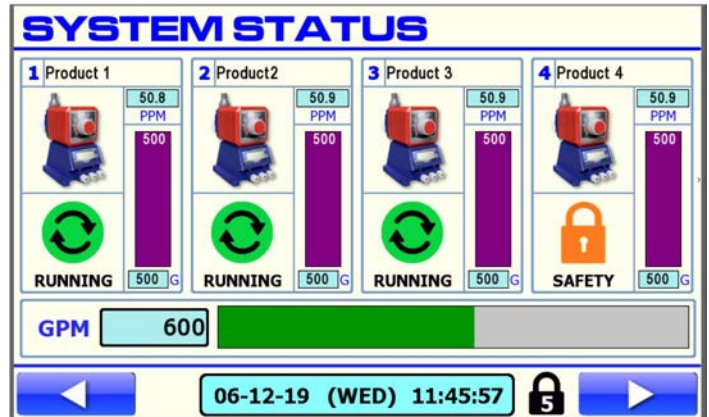

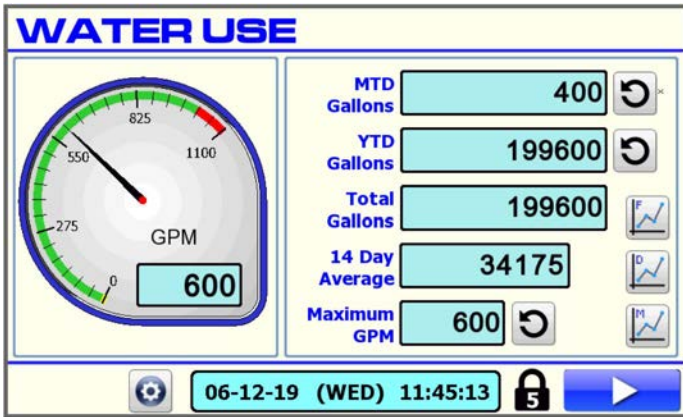

Description

The all-new GS7 Control system is finally here! After almost a year of development, three separate iterations of surface mount electronics, two-hundred pages of core-system code, and more than 40MB of custom made graphics, we are finally ready to let it out into the world. This product represents the culmination of 25 years of pioneering spirit and experience in building state-of-the-art water treatment equipment.

Features

- Bright, 7" color touch screen, mounted behind a secondary window for added protection from the elements.
- All new SMT Technology electronics supporting more sensors and more flexibility in pump control
- GS7 can now support Electroconductivity (EC), Redox (ORP) and temperature sensors
- Now supports Ultrasonic Tank Level Sensors
- Wireless connectivity comes standard (Free Trial, Subscription required) Allows remote control and monitoring via most platforms (Android, Apple, Windows, etc.)
- USB Flash drive allows moving statistical system information to a PC for analysis on Excel™
- System can display either English or Spanish.
- Multi-level password security throughout.
- Super user-friendly operator interface.
- Rate-Wizard performs fertility calculations for you and shows proper PPM settings.
